

Career Opportunity

Position Title: Gas Technician
Company: Northeast Ohio Natural Gas
Location: Mentor, OH
Department: Operations
Posting Date: 11/15/2023
Apply by: 11/22/2023

Primary Function

The Technician performs a wide variety of tasks in the field relating to the planning, installation, and maintenance of piping system, and to serving its residential, commercial and industrial customers. This individual's primary work is on the piping system, pressure regulating equipment, and customer meters. Daily duties entail performing installations, rebuilds, and adjustments of nearly any component of the utility field infrastructure. As well as locating natural gas facilities and meter reading.

The Operations Field Technician will enter businesses, industrial complexes, and customers' homes and makes contact with business proprietors, homeowners, and industrial plant owners and operators, mostly by explaining complex topics to these subjects. If necessary, this individual will prepare written memos communicating complex topics and problems to customers.
